

WHERE CLAUSE

The following operators can be used in the **WHERE** clause:

Operator	Description
=	Equal
>	Greater than
<	Less than
>=	Greater than or equal
<=	Less than or equal
<>	Not equal. Note: In some versions of SQL this operator may be written as !=
BETWEEN	Between a certain range
LIKE	Search for a pattern
IN	To specify multiple possible values for a column

NOT LIKE

Example

Select customers that does not start with the letter 'A':

```
SELECT * FROM Customers  
WHERE CustomerName NOT LIKE 'A%';
```

NOT BETWEEN

Example

Select customers with a customerID not between 10 and 60:

```
SELECT * FROM Customers  
WHERE CustomerID NOT BETWEEN 10 AND 60;
```

NOT IN

Example

Select customers that are not from Paris or London:

```
SELECT * FROM Customers  
WHERE City NOT IN ('Paris', 'London');
```

NOT Greater Than

Example

Select customers with a CustomerId not greater than 50:

```
SELECT * FROM Customers  
WHERE NOT CustomerID > 50;
```

Note: There is a not-greater-than operator: `>=` that would give you the same result.

NOT Less Than

Example

Select customers with a CustomerID not less than 50:

```
SELECT * FROM Customers  
WHERE NOT CustomerId < 50;
```
